SPECIAL ISSUE:

Nondifferentiable Problems in Optimal Design

The Editorial Board of Kybernetika has offered the possibility of publishing selected papers presented at the Workshop on Nondifferentiable Problems in Optimal Design which was held in Prague on January 20–21, 1992.

The Workshop was organized by the Institute of Information Theory and Automation of the Czechoslovak Academy of Sciences and was attended by 25 participants from 9 countries. Out of 17 contributions presented, 7 were selected for publication in this Special Issue of Kybernetika. The last article published in this issue was presented at the 2nd IFAC Workshop on System Structure and Control held in Prague during September 3–5, 1992.

Special thanks go to Dr. Jiří V. Outrata and Doc. Dr. Jaroslav Haslinger who served as Guest Editors of this Special Issue.
