## EDITORIAL

The current volume of Kybernetika Journal has an imposing number 50 and we are looking forward to celebrate the fiftieth anniversary very soon. The Journal has a long tradition – the first issue dates back to 1965. Since 2010, all papers ever published in Kybernetika became available online on the Journal’s web page.

As of 2014, the Journal has joined the DOI system and all new papers published in Kybernetika are equipped with a unique Digital Object Identifier. For more information please refer to [www.doi.org](http://www.doi.org).

We are pleased to introduce a young Hungarian painter Oliver Šin to our readers. We are going to publish his contemporary paintings related to science in five issues of this volume.
