Foreword

This volume contains most of the papers presented of the 16th Winter School on Abstract Analysis held January 16 – January 23, 1988, in hotel „Šumava” in Srní (Bohemian Forest), submitted for publication before March 1, 1988. To speed the publication of the proceedings, the full responsibility for the linguistic form of the papers was left to the authors.

*It is a pleasure to acknowledge my indebtedness to the branch in České Budějovice of the Union of Czechoslovak Mathematicians and Physicists for organizing the Winter School, to the Faculty of Mathematics and Physics of the Charles University, particularly to its Mathematical Institute, and to the Mathematical Institute of Czechoslovak Academy of Sciences for the traditional helpful cooperation, and to the Editorial Board of *Acta Universitatis Carolinae, Mathematica et Physica* for publishing the proceedings of the Winter School.*

I am particularly obliged to Dr. Václav Nýdl, the secretary of the Organizing Committee, who has improved the traditional organization of the conference, and to Dr. Petr Simon, managing editor of the Journal, who has succeeded to speed the publication and to get several brilliant papers in time.

Z. Frolík
