Remark. Further to the programme of the Symposium some participants deli-
vered lectures, organized during the Symposium or after its closure. Among these
lecturers were in particular J. Albrycht, T. Ganea, Jun-iti Nagata, P. Vopěnka.
On the request of the latter the Editorial Committee wishes to state that the basic
theorem of the paper of P. Vopěnka could not be proved. Only a weaker result formu-
lated in the terms of mathematical logic and axiomatic theory of sets was proved.
